3.EQUITY MUTUAL FUNDS:

Equity mutual funds invest the pooled money majority in stock of different companies

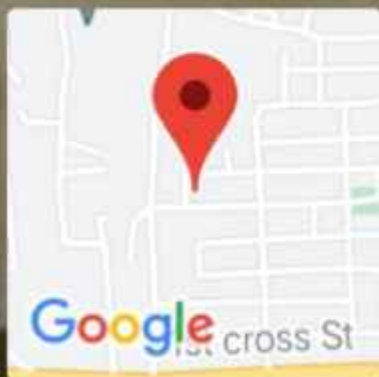

Hence equity mutual funds have an inherent higher market risk.

Factors like earnings, revenue forecast, management changes and company economic policy impact price movements and returns.

Returns from the equity funds have high fluctuation.

DEPARTMENT OF BCOM ISM

REPORT ON PEER TEACHING

FOR THE ACADEMIC YEAR

2023-2024

DHARMAMURTHI RAO BAHADUR CALAVALA CUNNAN CHETTY'S
HINDU COLLEGE

DEPARTMENT OF B.COM(ISM)

Report on "Peer Teaching"

30/01/2024

Learning Objective:

- To develop communication and presentation skills of the students.
- To foster teamwork and collaboration among peers in teaching and learning.
- To apply management concepts to real-world scenarios through peer-led discussions and activities.

Outcome:

- The BCOM ISM department organized a **Peer Teaching** for second year students on the topic "Principles of Management" on January 30th, 2024 at 3rd .COM ISM classroom. This session was presented by Sivaraam, Lakshmipriya, Swathi, Priyadharshini (3rd year students) under the headship of Dr. Premila Koppalakrishnan.
- Peer teaching encourages active engagement and participation among students, as they take on the role of both teacher and learner. This can enhance their understanding of the material and improve retention.
- Peer teaching fosters collaboration and communication skills, as students work together to explain concepts and provide feedback to their peers, this will not only

strengthens their learning, but also prepares them for real-world situations where teamwork is essential for success.

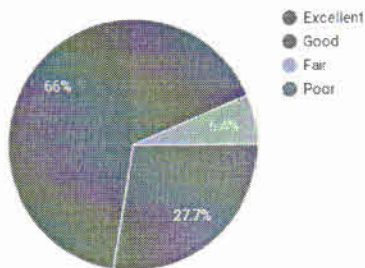

- Overall, peer teaching can be an effective and enriching educational strategy in the study of management principles.

ICT Tools Used for Teaching - Python, 2023

Submitted By

Dr.U. Urathal Alias Sri Swathiga

Head of the Department

Report on Varied ICT Tools Used for Teaching

Introduction: Information and Communication Technology (ICT) has revolutionized the field of education, providing diverse tools and platforms to enhance teaching and learning experiences. This report provides an overview of various ICT tools used for teaching, focusing on their impact and benefits in modern educational settings.

1. Learning Management Systems (LMS):

- **Examples:** Google Classroom.
- **Benefits:**
 - Centralized platform for course content delivery.
 - Enables online collaboration, discussion forums, and assignment submissions.
 - Streamlines grading and feedback processes.

2. Interactive Whiteboards:

- **Examples:** SMART Board, Promethean Board.
- **Benefits:**
 - Facilitates dynamic and interactive presentations.
 - Enhances engagement through touch-sensitive surfaces.
 - Enables real-time annotation and collaboration.

3. Video Conferencing Tools:

- **Examples:** Google Meet.
- **Benefits:**
 - Supports virtual classrooms and remote learning.
 - Facilitates live discussions, Q&A sessions, and collaborative projects.
 - Enhances accessibility for geographically dispersed students.

4. Online Assessment Tools:

- **Examples:** Kahoot!, Quizizz, Google Forms.
- **Benefits:**
 - Enables formative and summative assessments.
 - Immediate feedback to students and teachers.
 - Varied question formats for a comprehensive evaluation.

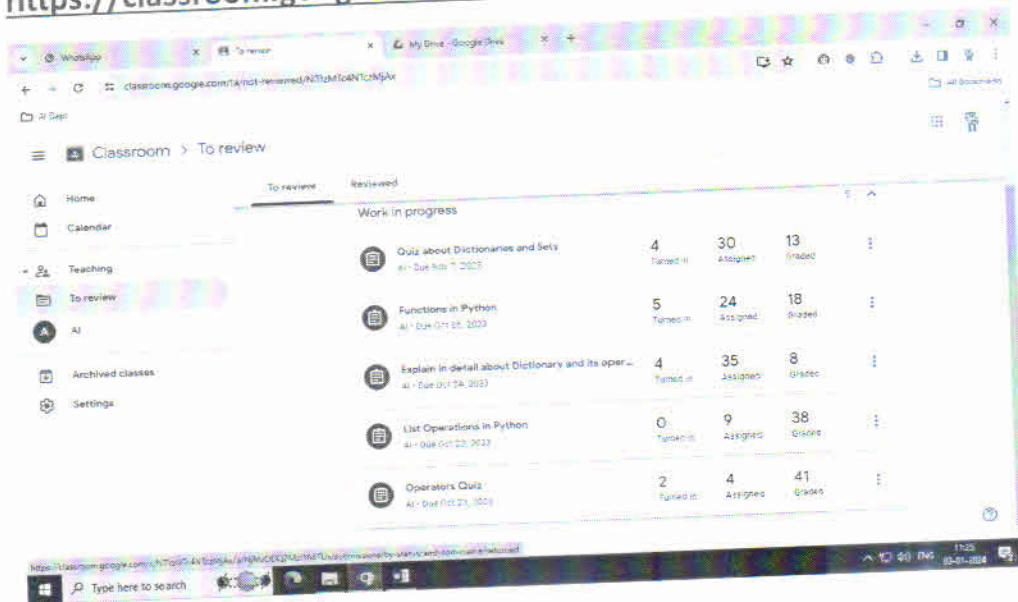

Conclusion: The integration of varied ICT tools in teaching has transformed traditional educational methods, providing educators with dynamic resources to cater to diverse learning styles and preferences. The continuous exploration and implementation of these tools

contribute to a more engaging, inclusive, and effective educational experience for both teachers and students.

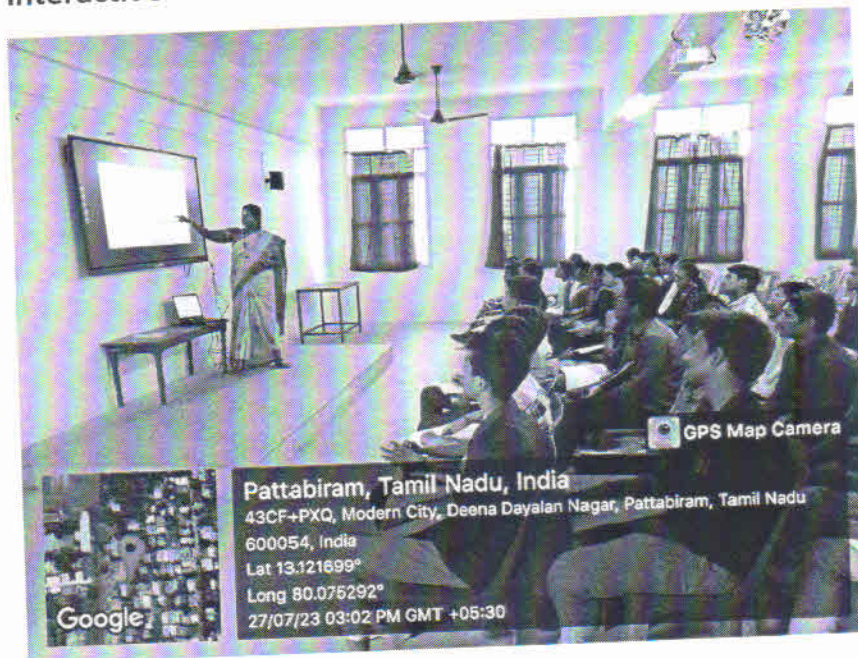

This report highlights the importance of embracing ICT tools and leveraging their potential to create innovative and impactful teaching and learning environments. Ongoing professional development and adaptability are essential to maximizing the benefits of these tools in the ever-evolving landscape of education.

Report

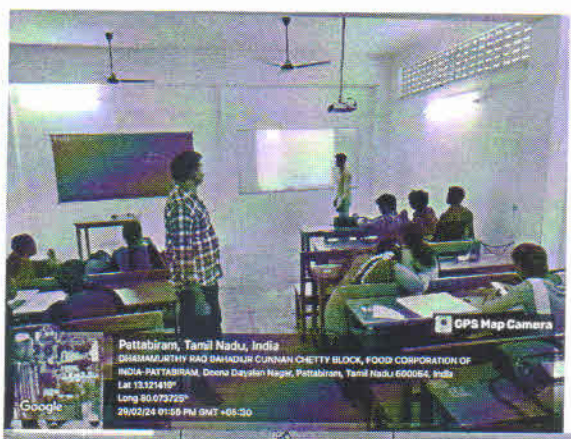

Frequency of ICT Tool Usage:

- Over 90% of staff reported using ICT tools on a daily basis.
- Approximately 80% of staff reported using projectors at least once a week for presentations, meetings, or training sessions.
- Google classroom (Materials and links are shared)
- Email remains the most commonly used tool, followed by Microsoft Office Suite (Word, Excel, PowerPoint).

Projectors play a significant role in facilitating presentations, meetings, and training sessions within our organization. While staff members generally express satisfaction with their usage, there are notable challenges such as technical issues and lack of training on advanced functionalities. By addressing these challenges and implementing suggested improvements, the organization can maximize the effectiveness of projectors in supporting staff operations.

In addition to Information and Communication Technology (ICT) tools, projectors have become an integral part of modern workplaces, facilitating presentations, meetings, and training sessions.

DRBCCC Hindu College
Department of English (Shift 2)
ICT Tools and e-content committee (General English)
MID-YEAR REPORT – AY 23-24

Keeping in mind the ever-widening integration of technology in language teaching, the Department of English (Shift 2) under the able guidance and supervision of Dr. Karpagavalli, Associate Professor and Head of the Department of English, started implementing ICT tools, and creating e-content for the General English students of the department from this academic year. The project which started on a trial basis soon picked up the necessary momentum. A meeting was conducted with the Head of the Department to evolve and finalize a plan for the ICT/e-content development. The Minutes of the Meeting is posted below.

Department of English (Shift 2)
Minutes of the Meeting
ICT Tools and e-content Committee

Date - July 17, 2023 / Venue – Department of English (Shift 2) / Time 11 am

A department level meeting was convened by the Head of the Department of English (Shift 2) Dr. C Karpagavalli on July 17, 2023, at 11 am. The primary objective of the meeting was to discuss the implementation of the ICT enabled teaching in the English classrooms and the creation of e-content for teaching and learning purposes.

The following were the attendees:

1. Dr. C Karpagavalli- Head of the Department of English (Shift 2)
2. Prof. Premjith Mathew - Assistant Professor, Department of English
3. Prof. K Karthi - Assistant Professor, Department of English
4. Prof. R Dinesh Kumar - Assistant Professor, Department of English

The meeting discussed the following points in connection to the ICT tools and e-content development:

- The attendees of the meeting opined that the teaching fraternity should move away from the comfort zone of using traditional methods of teaching and embrace technology to engage the learner. There is the need for a paradigm shift in mind set of the teachers. Teachers should be encouraged to use MALL (Mobile Assisted Language Learning) in the classroom.
- It was decided to conduct a survey/ poll among the first-year students of DRBCCC Hindu college to gauge their response regarding ICT / e-content.
- The members agreed to create an online e-content club in the college adding all the first-year students in a WhatsApp group.

C. Karthi
Associate Professor
Department of English
DRBCCC Hindu College (Shift 2)
Pattabirum, Chennai-600072

- The attendees opined that a proposal with the infrastructural needs of the department (extra computer with printer and scanner), projectors in the classroom, along with a detailed proposal for a language lab should be prepared based on the survey. The same should be submitted to the Principal and the Director.
- It was decided in the meeting to plan for a workshop on ICT Tools for the teachers in the second week of August. The objective of the workshop is to enable teachers to familiarize with the necessary IT and e-content generation skills.
- It is imperative that teachers prepare e-content for their respective classes and share it in the department WhatsApp group for documentation purpose. It was suggested that every teacher create at least one e-content for their students.
- It was also decided that an MoU can be signed with a company or an organization specializing in e-content/ digital tools.

The following duties and responsibilities were discussed and approved by the Head of the Department:

- Prof. Karthi will take care of the e-content generation in the BA English classes by creating an exclusive online group.
- Prof. Premjith will work to create a WhatsApp group for all the first-year students and will focus on content generation for Part II English.
- Prof. Dinesh, apart from Naan Mudhalvan project will offer his assistance to both B.A English and Part II English WhatsApp groups.

The meeting ended at 11. 30 am.

ACTIVITIES:

A WhatsApp group was created in the month of July 2023 to publish the e-content created by the staff and students. Most of the content created were related to the First Year general English syllabus. The common format used was digital posters. Assessment using Kahoot was also conducted through the WhatsApp group along with some in-app based quizzes and polls. Students who scored high marks were given cash awards and books as prizes. A WhatsApp group was also created for the second year General English students. (Science students) with the approval of the Head of the Department. Some of the e-content created (sample posters) can be accessed by scanning this QR code.

Sample report of the Kahoot Quizzes conducted for the students is given below:

Action plan of the ICT Tools and e-content committee (General English) for the next academic year

- To encourage more students to create content and share the content in social media.
- To encourage staff members to create content based on the syllabus.
- To add more multimedia based (audio/ video) content.
- To create a team of social media content creators for the department and college.

REPORT ON ICT TOOLS

Information and Communication Technologies (ICT) have revolutionized the education landscape, and nowhere is this more evident than in colleges. From interactive learning platforms to cutting-edge research tools, ICT tools are transforming the way students learn, faculty teach, and institutions operate. This report explores the specific Information and Communication Technology (ICT) tools used for students focused on four key tools:

- Google Classroom
- Quizizz.com
- PowerPoint presentations
- WhatsApp

It will analyze their individual strengths and weaknesses, their impact on my learning, and potential areas for improvement.

1. Google Classroom:

- Strengths: Provides a centralized platform for course materials, assignments, and communication. Enables easy organization and access to resources.
- Weaknesses: Primarily text-based, limiting interactive and multimedia content.
- Impact on Learning: Google Classroom has streamlined my organization and access to course materials, facilitating better time management. It offers valuable insights on my progress and areas for improvement.

2. Quizizz.com:

- Strengths: Provides instant feedback and detailed performance analysis. Allows for personalized practice based on individual needs.
- Weaknesses: Limited scope for open-ended responses and critical thinking assessments.
- Impact on Learning: The personalized feedback loop helps me identify my strengths and weaknesses and target my studying effectively.
- Quizizz:- <https://quizizz.com/join>

3. PowerPoint Presentations:

- Strengths: Easy to create engaging presentations with multimedia elements. Effective for both individual and group projects.
- Weaknesses: Requires planning and creativity to avoid monotonous presentations.

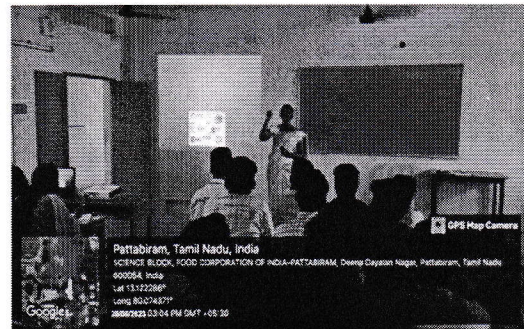

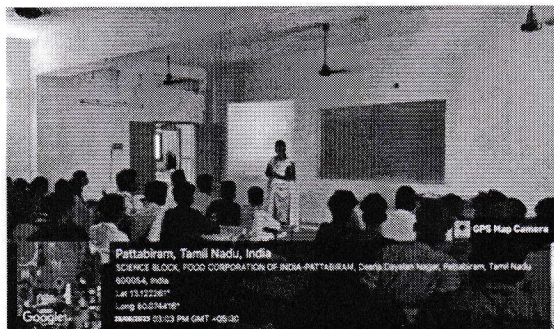

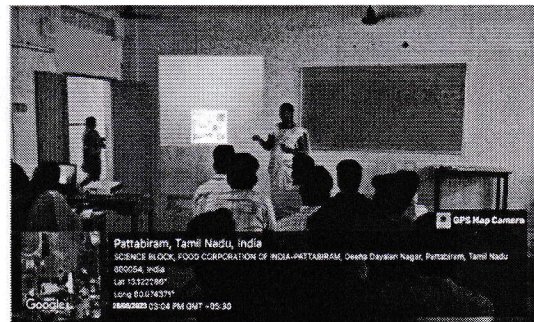

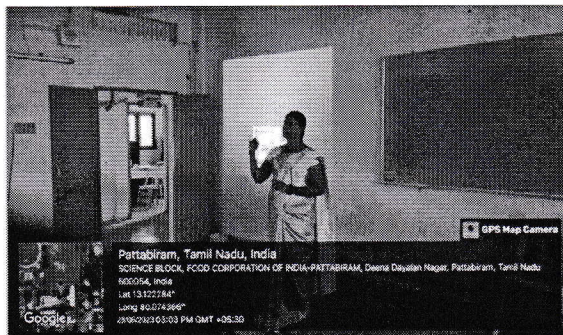

- Impact on Learning: PowerPoint has enhanced my communication skills, ability to present information clearly and concisely, it has strengthened my critical thinking and organization skills during project development.

4. WhatsApp:

- Strengths: Convenient and instant communication tool for connecting with classmates outside the classroom.
- Weaknesses: Can be distracting and disrupt focus if not used responsibly. Potential for misinformation and lack of formal structure compared to dedicated educational platforms.
- Impact on Learning: WhatsApp has fostered collaboration and peer-to-peer learning outside the classroom environment. It allows for quick inquiries and clarifications.

Conclusion:

The ICT tools mentioned above have become essential elements of my student toolbox, each serving a distinct purpose and impacting my learning differently. From streamlined organization and communication to gamified assessments and collaborative presentations, these tools enhance learning experience and make it more engaging and effective.

REPORT ON PEER TUTORING

Peer tutoring is a teaching and learning strategy in which students learn with and from each other without the immediate intervention of a teacher. Peer tutoring schemes frequently appeal to educators in Higher Education, and there is much literature examining implementation and assessment. Peer tutoring can help tutors develop communication skills, leadership skills, and a sense of personal satisfaction. This report is on peer teaching in a 1:5 student ratio, which is a form of small group learning that can be effective in promoting student engagement, active learning, and critical thinking.

The following topics were discussed during peer tutoring session.

1. Python Literals:

A literal in Python is a syntax that is used to completely express a fixed value of a specific data type. Literals are constants that are self-explanatory and don't need to be computed or evaluated.

2. Exception Handling:

The try...except block is used to handle exceptions in Python. When an exception occurs, it is caught by the except block. The except block cannot be used without the try block. The finally block is always executed no matter whether there is an exception or not.

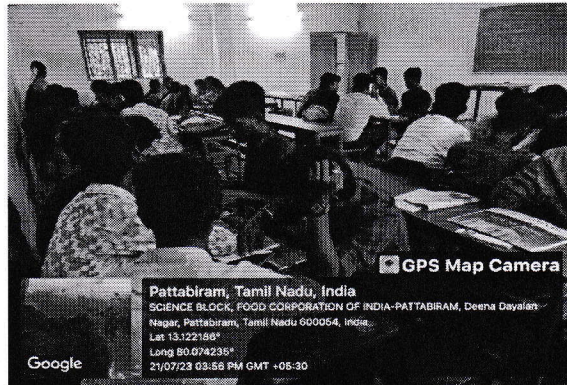

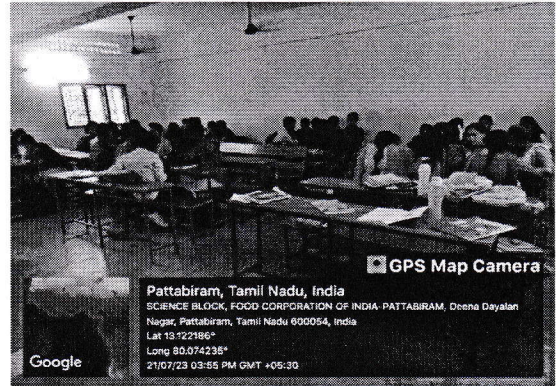

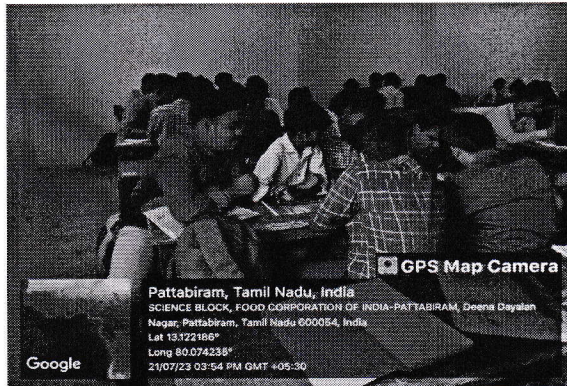

```
try:
    print(x)
except:
    print("Something went wrong")
finally:
    print("The 'try except' is finished")
```

3. Python Operators:

In Python programming, Operators in general are used to perform operations on values and variables. These are standard symbols used for the purpose of logical and arithmetic operations.

Peer Tutoring Approach

The interactive peer tutoring session was conducted with a 1:5 student ratio. The session was designed to be interactive and engaging, with peer tutors providing personalized attention and support to each student. The session was structured to help students understand concepts that they couldn't comprehend and provided the peer tutors with the revision of those topics.

CONCLUSION

Overall, the interactive peer tutoring session was a positive experience for everyone involved. The 1:5 student ratios allowed for more personalized attention and support for each student, which was especially beneficial for students who may have difficulty understanding certain concepts. Additionally, the peer tutors themselves benefited from the experience by developing communication skills, leadership skills, and a sense of personal satisfaction.

- **Client-Side Processing:** Applets offload some processing tasks from the web server to the client, potentially improving the server's performance and reducing network traffic.
- **Offline Usage:** Once an applet is downloaded, it can continue to run even when the user is not connected to the internet. This feature is useful for applications that require occasional or temporary disconnection from the web.

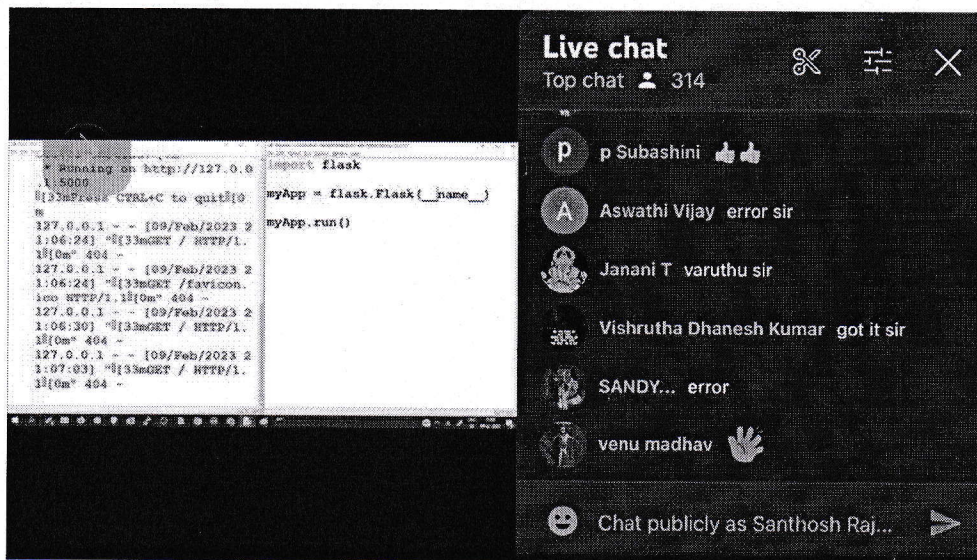

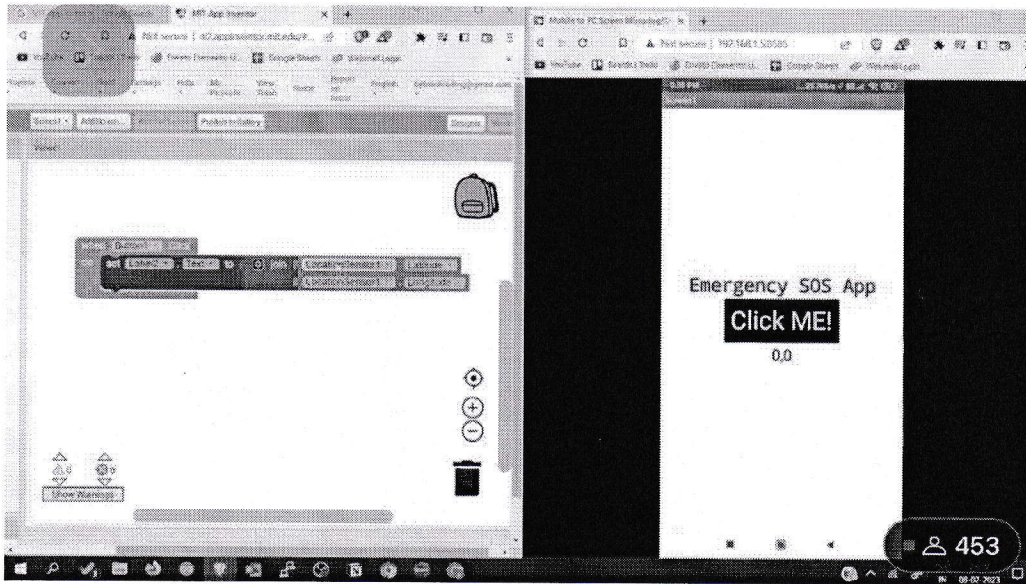

4.2 Life cycle of applet

1. Initialization (init() method):

The `init()` method is called when the applet is first loaded into the web browser. This method is typically used for one-time initialization tasks, such as setting up graphical components or initializing data. The `init()` method is executed only once during the applet's lifetime.
