Mentoring Report - (2023-2024)

Department of Business Administration conducted the mentoring session on October 25th 2023 from 03.30 PM to 05.30 PM for all the years to observe their opinions; each student was addressed individually in this session. Mentoring sessions are one of the ways to explore the core things from pupils; examples to help students develop their skills and reach their full potential, to share knowledge and expertise with the next generation, give back to the community, and make a positive impact, to provide guidance and support to students who may be facing challenges or uncertainty and finely to inspire and motivate students to pursue their passions and achieve their goals.

I am KAMALAKANNAN .A, Assistant Professor, Department of Business Administration, A total of 46 students are under my mentee list (1st year 13, 2nd Year 16, and 3rd year 17). As a mentor, I must provide guidance, support, and advice to students with less experience or knowledge in a particular area. I give feedback and help the mentee develop their skills and reach their goals. In my general observation, students gladly share their opinions during the mentoring session, and also give opinions about teaching methodology and other things that are expected from the management side and us. Only a few of the students are hardly expressing themselves to share their opinions. Most students' performance is good, but only a few students are found to be moderate in expressing themselves so, I advise people to improve themselves and guide which area need to be focused on that helps to achieve their goals.
